IMPACT ASSESSMENT FOR VCFWB3 TRANSITION FROM EOS TO VAULTA

Invierno AB, a benchmark administrator authorized and regulated by the Finansinspektionen under Regulation (EU) 2016/1011 (the "EU Benchmark Regulation" or "BMR"), hereby announces an extraordinary rebalancing of the VCFWB3 index.

Effective May 21st, EOS will no longer be supported in the VCFWB3 index due to a planned migration from EOS to Vaulta. Once the migration is complete, EOS will be removed from the VCFWB3 basket.

This change is being implemented per the extraordinary events provisions outlined in [Invierno AB's benchmark statement](#), which governs such modifications to the index methodology.

The transition process has been structured to ensure minimal market impact and maintain index integrity in compliance with Article 28(1) of the BMR.
